

KINGS OF CHICKEN JUDGING-Milam County's 4-H Poultry Judging team won the State Championship at the June 4 Roundup held at College Station. This is the seventh Milam team to take State honors in 13 years. From left are Fred Schuetze, As-

sistant County Extension Agent and team coach; Joseph Jistel, Joe Vaculin, and Clyde Jistel. The fourth member of the team, Daniel Richardson, was unable to be there for the photo. His hand was injured in an accident and he had to return home.

4-H Team Wins State

Poultry Crown 7th For Milam

(Special to The Herald)

COLLEGE STATION

Milam County's 4-H Poultry Judging team again went to the throne room as kings of Texas chicken judges by winning the 1970 4-H Roundup here June 4. This is the seventh time in 13 years a Milam County team has won the state honor.

The team, coached by Assistant County Agent Fred Schuetze, includes Joseph Vaculin, Clyde Jistel, Joseph Jistel and Daniel Richardson. This group posted 2506.5 points.

Vaculin was second in individual scoring with 847.5 points. David Pawlik of Sinton won top honors by posting 875.5 out of a perfect 900.

The State 4-H Poultry Judging Contest is sponsored by the Texas Poultry Improvement Association of Bryan. An all-expense paid trip to the 4-H Invitational Interstate Poultry Judging Contest at Chicago November 29 is awarded to the winning team by the TPIA.

Milam County as State Champions will represent Texas in the National Contest.

During the past 11 years, Texas teams have won two national championships -- Brazos, 1959 and Erath, 1963. Also, Brazos and Milam Counties placed second in the National Contest in 1961 and 1967, respectively.

Award medals were presented to members of the top three teams and to the three high individuals.

Brazos County team was second with 2472 points and third place went to San Patricio County with a score of 2397 points.

Top individual scorers were: Pawlik, first; Vaculin, second; Larry Isbell of Brazos County, third; Floyd Armstrong of Brazos and Clyde Jistel tied for next place, with Armstrong's scores giving him fourth, with Jistel fifth.

Gary Benninghoven of Hunt County took sixth place; Joseph Jistel of Milam, seventh; Richardson of Milam eighth; James Hejny of Ellis County ninth; and Tommy Dodd of Hunt, tenth.

Schuetze told The Herald this is the first poultry judging team he has coached. The young assistant Extension agent took over for County Agent J. D. Moore, who has coached the teams for 13 years.

Other county 4-H Club members participating in the Roundup included Viola Lamere, Belinda Helpert, Peggy and Deborah Stephens, and Martin Mueck.

Viola, of the Minerva 4-H Club, and Belinda, of the Burlington Club, won blue ribbons for their demonstrations. Martin won second place in a field of 18 in the tractor driving contest.

The team was accompanied by Wayne Jistel, acting as junior leader, and Mrs. Boyd Stephens of Rockdale as the girls' adult advisor.

Work on installation of a new 250-foot chimney for Aluminum Company of America's Rockdale Works is starting immediately, it was announced by Alcoa this week.

Installation of the new chimney and other auxiliary equipment will remove residual particles and eliminate the dark color from the present plume.

Alcoa anticipates that during 1971 the lignite dryer chimney emission color will be brought "well within Air Control Board limits," the announcement said.

The color problem occurs during the lignite drying process. The high moisture content of the lignite must be removed before charging to the boilers to generate electricity used in the aluminum smelting process.

"Attempts to develop equipment to abate this problem date back several years," the announcement said, "and involve expenditures of large sums of money and the efforts of Alcoa engineers, consultants from Texas A&M University, and abatement equipment manufacturers."

Alcoa engineers are now assured they have a process that will effectively deal with the problem.

Work on the foundation for the new chimney, to begin im-

mediately, will be handled by Commercial Contracting Company of San Antonio, Inc. When the foundation is in and ready, Rust Engineering Company, a division of Litton Industries, will erect the new chimney.

This phase of the lignite dryer chimney clean-up project is part of a current \$1-1/2 million program.

Bloodmobile Quota Is 71

The Central Texas Red Cross Bloodmobile will be in Cameron Wednesday from 1 until 7 p.m. at Methodist Fellowship Hall.

Quota is 71 units and local blood program workers are hoping for a "repeat or better" of the 88 units collected at the March 4 bloodmobile visit. Volunteer donors numbered 102 that day.

High school graduates and other 18-year-olds are reminded that they can volunteer to donate blood, however persons under 21 are required to have their parents' consent.

CONCERNING CRITICISM... Criticism comes of three sources: fear, jealousy or inquiry. The third is rare.

Fear of ideas, of change brings emotional reaction; jealousy infers an unfavorable comparison; analysis seeks improvement of the subject by stating strengths and weaknesses.

All three share one attribute: they focus on activities of others. A critic, at his objective best, is doing little else if he finds time enough to earn the title, except, perhaps where positive alternatives are suggested.

Fear and jealousy are negative responses, their contribution shaping dark comment.

The whole of criticism might be laughable, particularly this day, if so much of it was not sick.

NOW-NOW-NOW

Criticism is mostly based on what people think they know. Unfortunately what the high percentage thinks is not what they know, because by necessity they rely on information boiled over and misdirected.

What people know changes so often now days, it is like catching one's own shadow to know, to be certain, if people aren't moving, their shadow does, as the sun or moon or artificial light changes position, or in the case

of the light, burns out, leaving darkness or hate.

Amidst criticism, it is for some to keep turning or turning on the light so people, in this free society, can think they know.

NOW-NOW-NOW

POPULARITY SYNDROME...

If people only knew in youth or middle age what the elderly learn in longevity, they would conclude what Senator Benton, of Missouri, once said in a controversial stand prior to the Civil War: "I despise this bubble popularity."

Focus is not on "despise," it is on "bubble."

Cameron 'Sign Saga' Unfolds

How did a Cameron sign get all the way to Alaska? After a picture showing a sign pointing south "Cameron 3957 Miles" appeared in the June 4 issue of The Herald, Felix Matula came up with the answer.

Last Wednesday Felix called The Herald to report (and we were hoping someone would) that about six or seven years ago Taylor Morris, of the Maraksville Community, was on his way to Alaska with his family. He asked the late L. J. (Shorty) Matula to paint the Cameron sign to take along with them.

While he was serving in the Air Force, Morris had been aware of the growing number of signs that were accumulating at Watson Lake, Alaska installed by road workmen and so wanted to add to the display.

Next we would like a word from Morris. Just how did you put the sign up, Taylor?

WORSHIP IN CHURCH

LOVE at FIRST SIGHT

Remember, when you watch small children play, that they are among the greatest of God's gifts to the world. He holds a special love for them all... love at first sight. "Take heed."

Jesus once said, "that ye despise not one of these little ones." Divine regard was also made clear when the Disciples ask of Jesus: "Who is the greatest in the kingdom of Heaven?" Every man should well know the parable Jesus used that day to teach them the place He holds in His kingdom for our little ones. Oh, Lord, may we show our love by taking them to church, by teaching them that God's way should be their way, that they are the greatest in the kingdom of heaven.

NUMBER 10 WHAT WILL PROBATE COST?

Of universal interest is the question, "What will probate cost my estate?" The answer involves consideration of the size, type and location of assets of the estate, the debts to be paid and other factors.

COURT COST AND BOND PREMIUMS - THE WELL-DRAWN WILL

Court costs are the charges the clerk of court makes for handling the court papers. Such costs include \$1 for filing an application to probate the will, \$1.25 to issue notice of such filing, \$2 for an order probating the will and so on.

Court costs can be reduced to a minimum by a special provision in the will. With this provision, court costs are about \$50. Without it, considerably greater cost will be incurred.

For example, without it there would be a court charge of .5 per cent of cash receipts of the estate assessed at the time of final settlement of the estate. In addition, each application to the court and order issued by the judge entail extra costs.

If the will is not correctly drawn, the person handling the estate must post bond in an amount equal to the value of the estate (other than real estate) plus an additional amount equal to one year's revenue of the estate.

APPRAISER FEES

The law provides for the appointment by the probate judge of "disinterested" persons to appraise the property of the estate. Each appraiser is entitled by law to receive a minimum compensation of \$5 per day for each day he performs his duties.

FEES - THE ONE WHO HANDLES THE ESTATE

The fees of the one who handles the estate are set by law. Unless the will says how much the compensation is to be, the one handling the estate generally is entitled to charge 5 per cent of all amounts received in cash and 5 per cent of all amounts paid out. No commission is allowed for cash on hand at the time of death nor for paying cash to the heirs.

It is further provided that if the estate includes a farm, ranch, factory or other business, or if the compensation as calculated above is unreasonable, the court is authorized to allow the one handling the estate "reasonable compensation" for his services.

ATTORNEY'S FEES ARE NOT SET BY LAW

Some states set the amount of the attorney's fee. Texas does not, but provides that the fee shall be "reasonable." The attorney's fee is regarded as a private matter to be agreed upon between the lawyer and the one handling the estate in accordance with proper standards of reasonableness.

THE MINIMUM FEE SCHEDULE

To promote some uniformity in legal fees, the lawyers of Texas publish a schedule of fees. The schedule suggests an attorney's fee of 3 per cent of the value of the estate.

The fee includes usual and customary work the lawyer can anticipate will be required in the average estate. It does not include extraordinary or unusual services which the particular estate might require. Charges for extra matters are based on the time spent by the lawyer, difficulty of the service rendered and the values involved.

The schedule is not required to be used by all Texas lawyers and is advisory only.

WHAT WILL A WILL COST?

The lawyer's charge for drawing a will is small considering how much knowledge, experience and skill are necessary to produce it. The lawyers of Texas suggest a minimum of \$50 for the preparation of a simple will, that is one giving all the property outright to one or more persons, with provision for appointment of the person to handle the estate without court control and without

bond.

Where the will is more complicated, such as one creating a trust, setting forth lengthy or complicated provisions, the recommended fee is \$125. The same amount is recommended for preparing a trust established by a person during his lifetime.

The association of Texas lawyers also suggests that where a wife's will contains substantially the same provisions as her husband's, the charge should be only half the charge for the husband's will. Complications making necessary additional services and advice require additional fees in instances where greater efforts and knowledge are required than in preparing an ordinary will.

When a person asks a lawyer to prepare a will for him, he should not hesitate to inquire about the cost. It should be discussed frankly so that reasonable arrangements can be made in advance of the preparation of the will.

If extensive estate planning services are required in addition to the drafting of wills, the fee for such services is usually based upon the time actually spent in such services.

SUMMARY

Texas leads the way among American states in streamlining its probate procedures to minimize probate costs and simplify the handling of estates by doing away with many of the court proceedings found in other states. With a proper will, probate court costs are at a minimum and the fees of those rendering services to the estate can be estimated once the value and nature of the estate and the probable income and disbursements of the estate are known.

Bush Wants Stronger Ethics Bill

(Editor's Note: By a vote of 335 to one the House of Representatives on May 26 passed an ethics bill requiring Members' disclosure of sources of honoraria of \$300 or more and unsecured loans of \$10,000 or more. The following is a statement by Congressman George Bush on passage of the measure.)

"I supported this measure which requires the disclosure of sources of honoraria of \$300 or more and requires the listing of each creditor to whom the person reporting was indebted, without the pledge of specific security for \$10,000 or more for 90 days or more. This goes far to insure that each elected Representative will also be an agent of public trust.

"While I am pleased with the results of today's vote, I believe we need a stronger measure, broader in scope, I will continue to work for passage of an ethics bill, such as the one I introduced earlier this year. That legislation requires even more complete disclosure of Members' finances, their spouses', and staff members' earning more than \$15,000 per year."

Benefits To Increase For Alcoans

Effective June 1, 1970, five new employee benefits went into effect at Aluminum Company of America's Rockdale Works.

The benefits (which were previously negotiated by the Aluminum Company of America and the International Union, United Steelworkers of America on June 1, 1968) include a 13-cents an hour standard hourly pay increase, broader medical insurance, witness pay, bereavement pay, and an eighth holiday.

The benefit package, including the above new items enjoyed by all Alcoans, now costs the Company well over \$3,000 per year for each Alcoan.

According to Works Manager H. F. Chrisco, "These new benefits are made possible by efforts of the 1700 Alcoans here at Rockdale Works who help make the necessary profits to pay the costs for these fine benefits, and if our efforts to produce high quality products for our customers continue, the future will remain bright."

Agriculture is the nation's biggest single industry. It employs more people than the utilities, transportation, and the steel and auto industries combined.

We Move To Build . . .

Folk Fete digs deep in Milam history for Milam's future.

We are half the number of people, about 20,000, of the once booming Milam County of cotton and small farmer and oil. That is the toll of our history.

But Folk Fete searches the roots of even pre-American Revolution days to coalesce and unify those 20,000 for the 1970's and time beyond.

If we build with what we have, we must know our origins. Folk Fete poses the unified question in a diverse background.

And the answers will result from seeing the similarities of once unknown talents and

hopes in what Milam's people unveil at Folk Fete, June 12 and 13.

Central to meaning of a Folk Fete is "building." It is easy to tear down, to question without answer, to alienate.

We submit Folk Fete moves to build. Its hope is to sustain dignity in origin and to prompt dignity for future.

These are large purposes. But builders, as we believe the people of Milam County are, go beyond dream. As we see around us, they build. And as Folk Fete attempts to reveal, they understand.

If we dare not dare, who shall?

THE FAMILY LAWYER

Woman's Age: Her Secret?

May a woman lie about her age? The question is not always a frivolous one. On the contrary, serious courtroom battles have been waged over this very issue.

Suppose, for example, that a bridegroom finds out after the wedding that his bride is older than she said she was. Does her deception give him a right to an annulment on grounds of fraud?

Generally, no. Annulments are indeed granted for fraud, but only when the fraud involves something truly fundamental to the marriage relationship—something more vital than mere age. The reason is that the law prefers, whenever possible, to preserve a marriage, not to destroy it. One judge added wryly:

"Should the courts grant annulments just because women concealed their correct ages, the floodgates of litigation would be thrown wide open."

In another kind of age deception, a woman motorist was haled into court for giving three different ages—all in the thirties—on three different registration statements.

Here too, however, the court decided that her misstatements

were not momentous enough to make her guilty of an offense. The court pointed out that the main purpose of asking for the woman's age was to make sure she was old enough to drive. In this case, said the court, there was no doubt about that.

Nevertheless, it may be a different story when a woman takes some years off her age in applying for life insurance.

In this situation, there is no question of gallantry, no question of maturity. It is simply a question of arithmetic. An insurance company calculates its risk on the basis of the woman's life expectancy, which in turn depends primarily upon her age.

In most cases, an understated age on an insurance application will mean that the beneficiary of the policy will collect proportionately less insurance.

In fact, if the misstatement is due not to coquettishness but to plain dishonesty, the entire policy might be held null and void. The law may condone vanity, but not cheating.

PRESCIENCE

If you are pronouncing it pre SCIENCE, which means "knowledge of events before they take place; foreknowledge", is pronounced PRE SCIENCE.

An I have said before, it is amazing how one's image of a person can be destroyed by one slip in the use of English, especially when it is by no less a person than one of Nixon's cabinet members, and when it is of such a word as PRESCIENCE!

Fresh Fruits, Vegetables At Markets

To help economize on the food bill, here are some tips from Gwendolyn Clyatt, Extension consumer marketing specialist with Texas A&M University, about good buys in this week's food market.

Fresh strawberries from nearby growing areas are now available so serve them to your family while the quality is good and prices attractive.

Fresh fruits and vegetable items in best supply at the most reasonable prices include apples, oranges, cantaloupe, pineapples, bananas, carrots, potatoes, head lettuce, celery, cabbage, sweet corn-on-the-cob, green onions, radishes and strawberries.

"First of the Season" fresh blackeye peas are also showing up in some markets and are selling at moderate to relatively high prices.

Fryers are plentiful and are being sold at bargain prices.

Caloric Cost of Living

Just breathing, sleeping and eating represent a 1500 to 1600 daily calorie expenditure for men (1000 to 1200 for women). The current, revised daily recommended dietary allowances for calories is set at 2800 for the 22-year-old man (2000 for his feminine counterpart). This leaves a range of 800 to 1200 calories to spend in a variety of daily activities. The problem of obesity as well as the radical decline in physical activity common to today's society were considered when current revised allowances were established by the Food and Nutrition Board, National Academy of Sciences - National Research Council.

Church Rites Unite Miss Morris, James

Miss Marian Daune Morris became the bride of Mr. Clarence Bradley James Saturday afternoon at St. Cyril and Methodius Catholic Church in Marak.

Officiating at the wedding ceremony were the groom's grandfather, the Rev. Mr. Frank E. Taylor of Hollywood, New Mexico, and Rev. Patrick L. Johnson.

Inserts of Alencon lace enhanced the neckline, bodice, and front of the gown. The sleeves were of Angel skin peau de Soie and ended in tight lace bands. Tiny sequins and pearls enhance the lace trim. An attached Chapel train complimented the gown. Her veil of imported illusion, with a border of Alencon lace, fell from a peau de Soie bow enhanced with lace, seed pearls and sequins. She carried a pearl rosary and a bouquet of red roses centered with a white orchid.

Serving the bridal table at dinner were Miss Linda Guy of Corpus Christi, Miss Cathy McLemore of Bryan, and Miss Andrea Matula of Cameron.
